

The Small College Imperative: Models for Sustainable Futures

A Must-Read for the Future of Higher Education

The Small College Imperative: Models for Sustainable Futures is a groundbreaking book that explores the unique role that small colleges can play in creating a more sustainable future. Edited by Victoria Bryan and Thomas Ehrlich, this book brings together a diverse group of scholars and practitioners to examine the challenges and opportunities facing small colleges in the 21st century.

Small colleges have a long history of innovation and experimentation. They are often more nimble and responsive than larger institutions, and they can provide a more personalized and supportive learning environment for students. In recent years, small colleges have been at the forefront of the sustainability movement. They have been leaders in developing new curricula, research programs, and campus initiatives that promote environmental stewardship and social justice.

The Small College Imperative: Models for Sustainable Futures provides a roadmap for small colleges that are committed to sustainability. The book offers a variety of case studies and best practices that can help small colleges develop and implement sustainable initiatives on their campuses. The book also provides a theoretical framework for understanding the role that small colleges can play in creating a more sustainable future.

The Small College Imperative: Models for Sustainable Futures is essential reading for anyone who is interested in the future of higher education and the role that small colleges can play. The book provides a wealth of information and insights that can help small colleges create a more sustainable future for themselves and for the world.

What's Inside the Book?

The Small College Imperative: Models for Sustainable Futures is divided into three parts.

1. **Part One: The Context for Sustainability in Higher Education**
2. **Part Two: Case Studies of Sustainability in Small Colleges**
3. **Part Three: The Future of Sustainability in Small Colleges**

Part One provides a theoretical framework for understanding the role that small colleges can play in creating a more sustainable future. The chapters in this section explore the historical, social, and economic factors that have shaped the sustainability movement in higher education. They also provide

a critical analysis of the challenges and opportunities facing small colleges in the 21st century.

Part Two provides a variety of case studies of sustainability in small colleges. The chapters in this section describe how small colleges have developed and implemented sustainable initiatives on their campuses. The case studies cover a wide range of topics, including curriculum development, research programs, campus operations, and community engagement.

Part Three explores the future of sustainability in small colleges. The chapters in this section provide a vision for how small colleges can continue to be leaders in the sustainability movement. They also offer recommendations for how small colleges can overcome the challenges and seize the opportunities that lie ahead.

Why Read This Book?

The Small College Imperative: Models for Sustainable Futures is essential reading for anyone who is interested in the future of higher education and the role that small colleges can play. The book provides a wealth of information and insights that can help small colleges create a more sustainable future for themselves and for the world.

Here are just a few of the reasons why you should read this book:

- To learn about the unique role that small colleges can play in creating a more sustainable future.
- To gain insights into the challenges and opportunities facing small colleges in the 21st century.

- To discover best practices for developing and implementing sustainable initiatives on small college campuses.
- To envision the future of sustainability in small colleges.
- To be inspired by the stories of small colleges that are leading the way in the sustainability movement.

The Small College Imperative: Models for Sustainable Futures is a must-read for anyone who is committed to the future of higher education and the sustainability of our planet.
